Recognizing the preferences for more robust cigars, the J.C. Newman Cigar Co. created the strongest version yet for the Cuesta-Rey line in mid-2003. By using a wrapper leaf from the “centro fino” (center) of tobacco grown in the Quevedo region of Ecuador with heavier Dominican-grown ligero, the result is a medium-to-full-bodied blend which has met with wide excitement. The line has expanded and replaced the Centennial Collection, discontinued in 2003. All sizes are offered in boxes of 10, except for the Captiva, offered in 20s.
