

## *CigarCyclopedia.com Brand Report Card Index*

*(as of January 31, 2008)*

---

Here is a compact index to the grades given to brands we have taste tested from 2004 to the present. Each has been assigned a letter grade from A+ to F, with each grade having the following meaning:

<b>A+</b>	Outstanding	<b>C+</b>	Better than Average
<b>A</b>	Exceptional	<b>C</b>	Satisfactory
<b>A-</b>	Excellent	<b>C-</b>	Barely Satisfactory
<b>B+</b>	Very Good	<b>D</b>	Needs Improvement
<b>B</b>	Good	<b>F</b>	Failure
<b>B-</b>	Pretty Good		

What are the grading criteria?

- (1) We looked first for a good draw and an even burn and presentation – band, packaging and so on – had some impact.
- (2) Did the blend offer a distinct character? Did it make a clear statement? Those which provided a taste which showed brightness, refinement, control and subtlety impressed us; those which were just bitter, timid or unpleasant, did not.
- (3) A further refinement of the character question was the integrity of the blend. Did it try to fool the smoker by starting off one way and then changing in mid-course? Did the blend remain consistent in its burning and taste qualities throughout the smoking experience? Those which created a consistent taste throughout scored best.

Some brands have been graded more than once and this is indicated by a Roman numeral after the grade, such as "Avo Classic II" indicating the second grading.

You can read the full review of each brand in our Brand Report Cards!
